## Experience

Feb 2023 - April 2023

**Junior Frontend Developer - Project Manager**  
Polyview Health Inc

- Built landing page using WordPress, leading to an increase in customer inquiries and connections.
- Developed a pixel-perfect landing page by closely following the design team's Figma prototypes.
- Used Coda project management tool to keep track and report every team member's project status boosting productivity & communication.
- Conducted research to compile essential data for developing a robust product database.

Sep 2022 - Dec 2022

**Frontend Developer Internship**  
Wealthyhood

- Got the opportunity to work with a real-world React project.
- Learned to collaborate through GitHub.
- Implemented small UI changes to ensure alignment with design guidelines and improve user experience.

## Projects

**A Landing Page for a law firm**

- Developed with HTML, CSS, JavaScript.
- Translated a Figma design into a pixel-perfect landing page.
- Implemented animations & interactivity using the GSAP library & the Web Animations API.
- Applied modern CSS & JavaScript practices to optimize responsiveness and adaptability across diverse devices and screen sizes.

**Movie Database**

- Developed with React, CSS.
- Fetches data from [OMDb](#) using the Fetch API.
- Handled page navigation using React Router.
- Handled data storage using browser's local storage.
